

Flexi-Clean Conveyor Belt Scraper Rubber

Flexi-Clean Black-Orange-Black

Flexi-Clean Conveyor Belt Scraper Rubber provides excellent cleaning power against granulated, sticky and washed material. It is constructed of premium quality natural and synthetic rubber, which is comprised of an inner layer of flexible 45 durometer sandwiched between layers of 60 durometer rubber. This construction provides rigidity and outstanding wear life. Flexi-Clean must be mounted so that it protrudes from its support no more than 1- 1/2 times its thickness in order to prevent it from bending during service.
