

STR[™] Cold Bonding Adhesives

A superior, two-part cold bonding systems for a wide variety of industrial applications.

IMTECH STR cold bond adhesives family features a superior two part contact adhesive for high initial and permanent adhesion of rubber-to-rubber, metal, fabric, plastics and polyurethane materials.

- ▶ High initial and permanent adhesion
- ▶ Provides a strong bond with only a small amount of product
- ▶ Easy to mix and apply
- ▶ Higher threshold limits than products containing chlorinated hydrocarbons
- ▶ Available in several formulas for specific bonding applications

IMTECH[®] STR[™] 2100 COLD BOND ADHESIVE

A superior two-part contact adhesive for cold bonding rubber-to-metal, rubber-to-rubber, and rubber-to-fabric

- ▶ Free of chlorinated hydrocarbons
- ▶ Ethyl acetate solvent based, flammable

IMTECH[®] STR[™] 2000 COLD BOND ADHESIVE

A superior two-part contact adhesive for cold bonding rubber-to-metal, rubber-to-rubber, and rubber-to-fabric

- ▶ Trichloroethylene solvent based, non-flammable
- ▶ Use in well ventilated area

IMTECH[®] STR[™] FG FOOD GRADE ADHESIVE

- ▶ White Food grade solvent
- ▶ Trichloroethylene solvent based, non-flammable
- ▶ Use in well ventilated area

IMTECH[®] STR[™] PVC ADHESIVE

A superior two-part contact adhesive for cold bonding of PVC, plastics and polyurethane

- ▶ Free of chlorinated hydrocarbons
- ▶ Ethyl acetate based solvent, flammable

IMTECH[®] STR[™] METAL PRIMER

Used in conjunction with IMTECH STR adhesive systems to provide optimum bonding of rubber lining and lagging product to steel surfaces. STR metal primer will help protect the steel surface from oxidation.

IMTECH[®] offers a wide range of bonding solutions.

IMTECH[®] STR[™] 2100 Cold Bonding Adhesive is easy to apply and provides excellent bond strength.

Part No.	Description	Volume	UOM
STR-2100-1	Two-part Contact Adhesive (requires one - 35 gram bottle of STR-H-35 Hardener)	1	liter
STR-2100-4	Two-part Contact Adhesive (requires five - 35 gram bottles of STR-H-35 Hardener)	4	liter
STR-2000-1	Two-part Non-Flammable Contact Adhesive (requires one - 80 gram bottle of STR-R-80)	1	kg
STR-2000-5	Two-part Non-Flammable Contact Adhesive (requires five - 80 gram bottles of STR-R-80)	5	kg
STR-PVC-1	PVC Adhesive (requires one - 35 gram bottle of STR-H-35)	1	liter
STR-PVC-4	PVC Adhesive (requires four - 35 gram bottles of STR-H-35)	4	liter
STR-FG-1	STR Food Grade Cement (Requires one 40 gram bottle of STR-H-40)	1	kg
STR-FG-5	STR Food Grade Cement (Requires five 40 gram bottles of STR-H-40)	5	kg
STR-MP-1	STR Metal Primer	1	liter
STR-MP-4	STR Metal Primer	4	liter
